FOCUS

Product engineering
Mobile development
Applied AI
Technical leadership

PROFILE

Product-minded software engineer with 10+ years of experience taking digital products from concept to production. I combine deep React Native, React, TypeScript and Node.js experience with hands-on technical leadership. Today I focus on applied AI, building practical workflows that make AI useful inside real products.

EMPLOYMENT HISTORY

Senior Front-end Engineer

London

Cleo AI | 2025 - Present

Building front-end product experiences at an AI-first consumer fintech, with a product-engineering focus on clear, trustworthy and high-value user journeys.

React Native Lead Developer

London

Bumble Inc / Fruitz | 2023 - 2025

Led React Native development for Fruitz, one of France's largest dating apps, serving 300k+ daily users. Shipped gesture-rich features and animations, improved performance, created CI/CD pipelines, and supported reliable app-store releases through analytics and observability.

Senior Mobile Developer / Mobile Lead

London

Eolas Medical | 2021 - 2023

Built an offline-first, white-label React Native product for hospital teams. Delivered real-time chat, A/B-tested features, performance improvements and CI/CD for multiple branded app-store releases.

Mobile Lead Developer

London

Zilch | 2020 - 2021

Helped take Zilch's buy-now-pay-later platform from web to its first React Native app, reaching feature parity and leading virtual Mastercard integrations with Apple Wallet, Google Wallet and Samsung Pay.

CORE SKILLS

React Native
Expo
React
TypeScript
Node.js
Supabase
Real-time systems
AI product workflows
CI/CD & app stores
Performance & analytics

HOBBIES

Photography
Gaming

Founder, Software Architect & Lead Engineer

Sao Paulo

Global Points / VR Beneficios | 2015 - 2020

Founded and architected a large-scale white-label loyalty, rewards and commerce platform, later acquired by VR. Led teams and hands-on delivery across mobile, backend and internal systems, including loyalty, gamification, cashback and marketplace products.

SELECTED PRODUCT WORK

Betsor

FOUNDER | REAL-TIME MOBILE PRODUCT | 50K+ USERS IN LESS THAN SIX MONTHS

Created a Brazil-focused iOS and Android product for live-game analysis, statistics and AI-assisted signals. Its engineering combines low-latency event pipelines, real-time updates, production operations and cross-platform mobile performance.

Lana

FOUNDER | HEALTH AI | IOS + ANDROID

Created an AI-powered fitness and nutrition ecosystem for users and personal trainers. Combined conversational AI with structured training, meal logging, streaming interfaces, Apple Health / Health Connect integrations and privacy-aware workflows.

Curate for macOS

FOUNDER | DESKTOP PERFORMANCE | REACT, VITE & RUST

Created a fast desktop application for reviewing, selecting, organizing and editing large image libraries. React and Vite power the interface, while Rust supports the performance-sensitive desktop layer.

EDUCATION

Bachelor of Information Technology

Sao Paulo, Brazil

Laureate International Universities | 2011 - 2014
